Add user

① ② ③ ④ ⑤

Set user details

You can add multiple users at once with the same access type and permissions. Learn more

User name*   user1

➕ **Add another user**

Select AWS access type

Select how these users will access AWS. Access keys and autogenerated passwords are provided in the last step. Learn more

Access type*   ☐ **Programmatic access**
Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.

☐ **AWS Management Console access**
Enables a **password** that allows users to sign-in to the AWS Management Console.

* Required

Cancel   **Next: Permissions**

Select AWS access type

Select how these users will access AWS. Access keys and autogenerated passwords are provided in the last step. Learn more

Access type* ☑ **Programmatic access**

Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.

☑ **AWS Management Console access**

Enables a **password** that allows users to sign-in to the AWS Management Console.

Console password* ○ Autogenerated password

● Custom password

> ●●●●●●●●●●●●

☐ Show password

Require password reset ☑ User must create a new password at next sign-in

Users automatically get the IAMUserChangePassword policy to allow them to change their own password.

✅ **Success**

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: https://892646715450.signin.aws.amazon.com/console
